Tile Leveling System

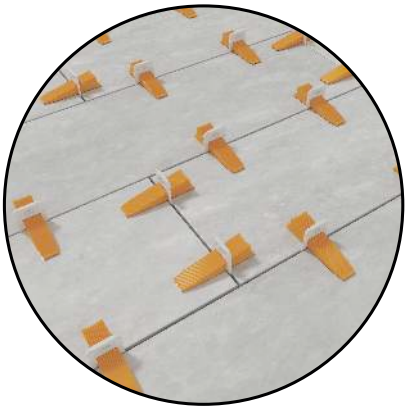
MADE IN USA

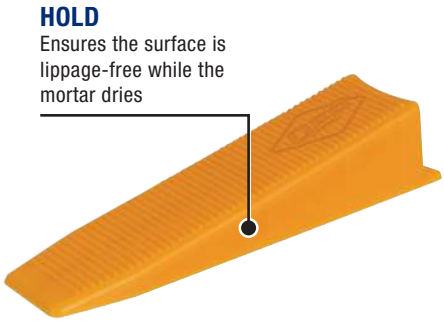
CLIPS

2-part system (each part sold separately)

WEDGES

For Tile up to 1/2" Thick





SCAN HERE FOR PRODUCT INFO

Lash XL™ is a two-part system that ensures large format tile surfaces are leveled and consistently spaced during installation. The Wedges are used in conjunction with the Leveling Clips (sold separately) to produce even grout lines and align neighboring tile delivering a lippage-free surface. The Leveling Clips are produced in 4 popular grout line widths - 1/32", 1/16", 1/8", and 3/16". For quick and easy removal, Clips are designed to break off below the surface of the tile with a simple kick in the direction of the grout line, or strike of a rubber head mallet. The Wedges can be saved and reused on the next project. Lash XL Tile Leveling System eliminates uneven tiles and delivers professional tile installation results.

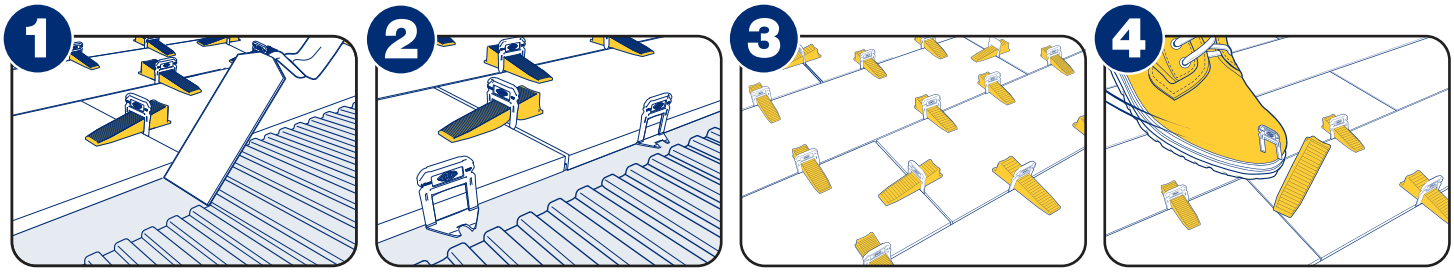
Easy to install and remove!



Clean excess thinset along tile edge

Insert Clip approximately 2" from each end of the tile

Secure wedge into clips to level, align space and hold the tiles

Once the mortar sets, break-off in direction of grout line within 24 hours

Tile Leveling System should be used with a minimum 3/8" depth trowel notch to apply the setting material. Back buttering your tile is always recommended.
