Vibratory Screeds

Reliable performance and operator comfort

When finishing concrete slabs, Wacker Neuson's wet screed can fit the demands of every job site with a variety of blade lengths, plus each unit is designed to fit the demands of every operator. It's unique twin handle system is fully height and angle adjustable offering maximum operator comfort. In addition, two isolators and specialized lower handle mount design reduce vibration to the operator. The squeeze grip handle is also foldable for easy transport and storage.

- Adjustable eccentric weights can be adjusted to seven different positions allowing the unit's force to be appropriately matched to the application.
- Lightweight unit features lifting handle for easy transport.
- High production unit for quick and accurate strike-off of concrete slabs with or without the support of grade stakes and forms.
- Fully enclosed exciter for operator protection and low maintenance.
