

Husqvarna DC 1400

DC 1400 is a versatile dust collection unit for wet and dry applications. It is ideal for smaller jobs when a high level of portability is desired. This new product is the perfect complement to PG 400, PG 280, K 3000 Vac and DM 220. DC 1400 comes complete with hoses and accessories. Two specially developed adapters are included for perfect attachment to our recommended Husqvarna products.

AUTOMATIC DUST FILTER CLEANING

Automatic dust filter cleaning prevents clogging while working. Possible to run the machine at the same time as the filter is being cleaned.

AUXILIARY START/STOP SYSTEM

Auxiliary start/stop system enables remote start/stop of the DC 1400 when starting/stopping a connected machine (max 2200 W/ 220 V)

LONG HOSE

The 8 ft. long hose enables DC 1400 to perform on a large area

MULTI ADAPTER

DC 1400 includes an adapter for easy connection to PG 400, PG 280, K3000 VAC and DM 220
