

Husqvarna DM 650

Our most powerful and versatile electric core drill for drilling holes up to 24 in. diameter. Equipped with high frequency PRIME™ technology. The high power output, low weight, user-friendly setup and intelligent design make DM 650 the perfect choice for heavy-duty applications. Can be used with either PP 65 or PP 220 as a power source. Suitable for water evacuation, plumbing and waste evacuation pipes.

EXTREMELY POWERFUL
The motor delivers 8 hp on the spindle (4 hp on 1-phase).

ADJUSTABLE RPM RANGE
18-step adjustable rpm range ensures optimal speed for all drill bit dimensions.

MINIMAL SERVICE NEEDS
Dust and water proof, water-cooled motor with minimal service requirements.

DURABLE AND ERGONOMIC DESIGN
Durable and shock-proof, designed to protect the electronics. Easy to carry and install thanks to low weight and ergonomic design.

Features Husqvarna DM 650

- An LED indicator shows the load of the machine, allowing you to always drill at maximum pressure.
- Speed is reduced to increase torque through rebar and hard aggregates for increased productivity.
- The machine uses pulsation to warn you of an approaching overload. This increases productivity and extends product life.
- The LED indicator shows the load of the machine, allowing the operator to always drill at maximum pressure, for best performance.

TECHNICAL SPECIFICATION	
Power	6000 W
Water coupling	G 1/4"
Max drill bit diameter, stand	24 inch
Min drill bit diameter	4"
Spindle thread, outer	G 1 1/4"
UNC water coupling	G 1/4"
Water Pressure, Max	8 bar
Water flow, min	0.5 l/min
Max water temp at min flow	15 °C
Weight	30.8 lbs
Hand arm vibration (Aeq)	1 m/s ²
