

EQUIPPED WITH

PACKAGE

- For cleaning grout from walls and floor.
- The two rollers mounted on wear resistant sockets have 15° inclination which prevents the sponge float to touch the bucket rim and so avoiding water dripping.
- The special roller edges are made in relief for avoiding water dripping when squeezing the sponge float.
- The high-capacity tank reduces the need for frequent water changes.

- The high absorption sponge "Sweepex" allows for a perfect cleaning.
- The wash bucket structure is made of high quality plastic and equipped with an high load resistance grating, it's an absolutely reliable, long lasting and sturdy product.
- The bucket shape is designed free of sharp edges (only rounded) and so it is really easy to be cleaned.
- Equipped with 'Sweepex' sponge trowel, grating, handle for transport, wheels Ø 63 mm (Ø 2 1/2").
