# C51 Wet Core Bits

**Faster and  
Even More  
Aggressive!**

## C51 Segmented /Double Pointed

★★★★★ PRO V

### Quality Level 5 - Hard Aggregate and Heavy Steel

Faster drilling – The double-pointed segments provide incredibly fast drilling speeds.

Fast seating and reduced vibration – The double-pointed tips penetrate quickly, and hold a straight drilling path to reduce side drag. Reduced vibration improves drilling efficiency and bit life.

WET ONLY

2" - 6" are laser welded

6-1/4" > are brazed

16" and above standard with spoke back

Solid or welded backs and special barrel lengths are available upon request.

Wet Bit Specifications	
Bit Diameter	Core Travel
1" - 14"	14"
16" - 17"	20"
18" - 19"	22"
20" - 31"	24"
32" +	36"

Improved cooling and slurry removal – The double-pointed segments increases water flow to reduce heat and removed slurry more efficiently.

Specially formulated segments – Pro V bits contain high concentrations of quality diamonds combined with a special blend of metal powders to deliver maximum performance with lowest drilling costs.

Dia.	C51 Solid Back Part No.
2"	D36101
2-1/4"	D36102
2 1/2"	D36103
