DITEQ Diamond Blocks

Available in three bonds and four different grits, these long lasting diamond grinding blocks have fast grinding speeds and are designed to be used wet or dry.

Applications: Smoothing rough surfaces including imperfect or damaged concrete slabs, removing coatings such as epoxy and urethane, removing mortars, leveling surfaces - removing high spots.

Description	Soft Bond Part No.	Med. Bond Part No.	Hard Bond Part No.
30/40 Grit	161462	161457*	161461
40/50 Grit	161463		
50/60 Grit	161464		
80/100 Grit	161465		

* general purpose

DITEQ diamond and PCD grinding blocks are totally interchangeable with blocks made by several manufacturers including Husqvarna, EDCO, Diamond Products and General

Equipment and fit the following machines set up for blocks:

Husqvarna: RG2112 Dual Trac

EDCO: 2EC/GC, SEC, 4EC/GC

Diamond Products: CC2 series

General Equipment: SG12/SG24

Trelawny: TCG500

DITEQ PCD Blocks

With four PCD chips, this super premium PCD block has twice as many PCD chips as most other blocks do in the market. The PCD's stay sharp and will last 10 times longer than carbide chips.

A diamond wear segment makes this a very effective coating stripper and minimizes any gouging of the surface.

This aggressive block will make quick work of epoxy coatings, hard glues, pool decking and water-proofing membrane, and grind concrete and terrazzo to smooth rough surfaces left by trowel marks.

Description	Part No.
PCD Block	161555
