

**MODULAR AND FLEXIBLE**  
The drill column is easy to turn and tilt meaning it is ideal for drilling numerous holes at almost any angle, providing several combination options.

**PORTABLE AND EFFICIENT SETUP**  
Several drilling options with one setup.

**QUICK MOUNTING OF DRILL MOTOR**  
The easy mounting of the drill motor means quick setup.

**INSTALLED BY STANCHION**  
The drill rig is installed between floor and ceiling, with no need of anchoring. This means it is quick to setup and is gentler on the surroundings.

## Husqvarna DS 50 Gyro

*The Husqvarna DS 50 Gyro is a telescopic stand system that works with most drill motors. This system features quick mounting, easy drilling and fast unmounting on-site, saving both time and money. The modular system and the stand's flexibility allow both straight and angled drilling in walls, floors and ceilings.*

**TECHNICAL SPECIFICATION**
