

## Husqvarna PP 325 E

*PP 325 E is an efficient and versatile electrical power pack for hydraulic products like our DM 406 H drill motor, K 3600 MK II and K 2500 power cutters. Suitable for surroundings where access to maintenance is limited.*

### **EASY TRANSPORTATION AND POSITIONING**

Mounted on a heavy-duty single axle trolley.

### **WATER-COOLED HEAT EXCHANGER**

For low operating fluid temperature.

### **EASY AND SMOOTH STARTS**

SoftStart™ provides easy startup, even at low temperatures when the oil is thick.

### **MOUNTED ON A CART**

Mounted on a cart, it is easy to move around.

**TECHNICAL SPECIFICATION**

|                                |                                |
|--------------------------------|--------------------------------|
| Motor manufacturer             | Electric                       |
| Power output                   | 13 hp                          |
| Phases                         | 3                              |
| Engine cooling                 | Liquid                         |
| Voltage                        | 400 V                          |
| Rated current, A               | 16 A                           |
| Hydraulic flow, max            | 10 gal/min                     |
| Hydraulic pressure             | min: 0 psi; max: 9.65 psi      |
| Hydraulic tank capacity        | 3.2 gal.                       |
| Pump                           | Gear pump                      |
| Capacity pump, cm <sup>3</sup> | 14                             |
| Suitable for                   | WS 325, DM 406, K 3600, K 2500 |
| Weight incl. oil and hoses     | 205 lbs                        |
| Product size, LxWxH            | 31x23x41 inch                  |
