

Husqvarna TS 90

TS 90 is a tile saw with cutting capacity like a rail saw. A versatile saw perfect for both large and small tiles. The optional adjustable stand enables one person to move TS 90 around the jobsite. With the optional stand the tile saw can easily be positioned to various heights or collapsed with one hand. With the quick and easy set up you will get more cutting done. The water management system minimizes the water use for a clean work area. The machine is equipped with a separate water tank which supplies all water needed and facilitate the slurry sedimentation. The tile saw is ideal for plank tiles, large tiles as well as smaller tiles. Delivered with VARI-CUT™ tile blade.

EASY TRANSPORT

Quick and easy set-up and breakdown mean more time cutting on the job.

CLEAN WORK SPACE

Keeps water and slurry in the cart, not on the tile face like traditional saws, so there is little slurry to wipe off after cutting.

EXCEPTIONAL CUTTING CAPACITY

The dual movement cart enables 36" rip cuts and 24"x24" diagonal cuts.

SEPARATE WATER TANK WITH CAP

Supplies all water needed to the blade and cart. It is stored on cart and does not have to be moved separately.

Features Husqvarna TS 90

- Water is directed to the cart trench or through the blade guard when needed, by a patented Jet Stream Containment System.
- Splash guard
- Flexible sawing

TECHNICAL DATA	
Motor rpm	3000 rpm
Phases	1
Current phase cycle	60 Hz
Blade shaft RPM	3000 rpm
Spindle diameter	15,9 mm
Blade diameter	254 mm
Max cutting depth	78 mm
Max cutting length	920 mm
Water tank volume	12,5 lit
Product size, LxWxH	1120x720x590 mm
