

Clamping Ring Drains

Shower Drains for Watertight Installations

Use with Noble Sheet Membranes in wet areas

- Meets plumbing code requirements
- Ideal for wet areas like tiled showers, baths, etc.
- Quality construction helps ensure performance
 - Mechanical attachment provides waterproofing integrity
 - Weep slots and holes on both sides of collar maximize drainage
 - Brass inserts in collar and tailpiece prevent damage from tightening
 - Over 2" of adjustment in height
- Available with either square or round strainers in various finishes

Clamping Ring Drain Product Description

SPECIFICATIONS

The Noble Company shower pan drain should be used where necessary in drainage systems. Drain has a beveled flashing body/adaptor for subfloor installation. Clamping collar fastens to drain body with four stainless steel machine screws that thread into brass inserts. Drain body has a membrane flange and 2" Sch. 40 hub connection. Connection to DWV system shall be made with a solvent wet joint to PVC or ABS pipe. Drains are designed in accordance with ASME A112.18.2-2005 / CSA B125.2-05.

SHAPE/ FINISH	ITEM #	STRAINER LOAD RATING	STRAINER FLOW CAPACITY*	STRAINER FREE AREA	STRAINER MATERIAL	HEAD ADAPTER MATERIAL	BASE ADAPTER MATERIAL
Square Oil Rubbed Bronze Finish	3891	1,000 lbs.	16.4 GPM	7.6 in. ²	304 stainless steel	ABS	PVC
