

STAIN REMOVER FOR NATURAL STONE AND PORCELAIN

SR95

**POLISHED AND MATTE PORCELAIN TILE, ALL NATURAL STONE,
GLAZED CERAMIC TILE, CONCRETE**

- **REMOVES ORGANIC STAINS: WINE, COFFEE, FOOD STAINS, PERMANENT MARKER.**
- **IDEAL FOR POLISHED NATURAL STONE AND LOW ABSORPTION TILE.**

Packaging:

75 ml (2.54 OZ) 12 bottles per box

WHAT IT'S FOR

- Eliminates colored, organic stains: wine, coffee, soft drinks, tea and permanent marker.
- Designed to remove stains on natural stone surfaces: marble, travertine and limestone.

ADVANTAGES

- Does not damage the finish on polished natural stone.
- Ideal for low absorption tile such as polished and textured porcelain.
- Removes deep set stains where other stain removers are not effective.

HOW TO USE IT

Ready to use, no dilution necessary.

Shake well before use. Completely cover the stain and let sit for 15 minutes, until it disappears. Remove any residue with a sponge.

Should stubborn stains remain on marble surfaces, remove the product before it dries completely and repeat the application.

Caution: The product bleaches fabrics.

Storage temperature: between 32°F and 86°F (0°C and 30°C). Must be applied at temperatures between 41°F and 86°F (5°C and 30°C).

FILA. Because It Works.
