

# STABILA®

## LAX500G w/ REC230RG

Cross-Line & Plumb Dots Laser & Line Receiver

Cat. #03521

**NEW!**

**INCLUDES  
REC230  
DIGITAL  
RECEIVER!**

**Versatile** laser lines with **long-range** detection for **maximum** jobsite reliability.

- **Effective optics protection** thanks to the protective housing.
- **Versatile** use thanks to cross-lines and plumb dots.
- **Exceptional** indoor visibility and **reliable** operation without the need for a receiver in normal indoor conditions.
- GREENBEAM technology delivers highly visible lines with receiver-assisted outdoor readability **up to 330 ft.**

#### Included:

- LAX500G Cross-Line & Plumb Dots Laser
- REC230RG Line Receiver
- CAS 12 V Li-ion 2.0 Ah Battery (Cat# 07626)
- SC 30 CAS charger (US)
- Laser Base
- Wall Bracket
- Target Plate
- Carrying Case.

#### Technical data

|                                 |                        |
|---------------------------------|------------------------|
| Self-levelling range            | ± 5°                   |
| Levelling accuracy              | ± 1/8 in @ 30 ft       |
| Laser wavelength                | 510 - 530 nm           |
| Measuring range of visible line | 330 ft with receiver   |
| Operating life                  | Approx. 20 hours       |
| Laser class                     | 2                      |
| Power supply                    | CAS 12 V Li-ion 2.0 Ah |
| Protection class                | IP 54                  |

- Powerful receiver for pulse-modulated laser lines (green/red) to extend the working area.
- Illuminated digital display on both sides.
- Acoustic and visual guidance.
- Integrated magnet system on the upper edge of the housing.
- Waterproof and dustproof (IP 66).
