

Ref.: 68991

## USE

- Bucket specially designed to remove mortar residues from joints on both floors and walls using the appropriate floats for this purpose. Especially suitable for large surfaces. It reduces the fatigue of removing grout and prevents back and knee problems.

## HIGHLIGHTS

- **PREMIUM** positioning bucket for professional use.
- **Foot operation** to facilitate the wringing of the sponge with handle. Provides **great wringing power**. The pedal operation allows you to avoid bending down to clean the sponge with handle.
- **Two rollers for manual floats**, designed for cleaning joint mortar leftover in wall installations: Two rollers allow us to clean the manual floats. The rollers can be fixed by locking or allow a slight movement of inclination during the draining of the sponge.
- **High capacity bucket**, 32 l and wide base. Its wide base together with the water capacity provides great stability and allows a better and easier cleaning.
- **Easy transport**: Thanks to its two wheels and the pedal lock that allows you to do the handle functions.

## OTHER FEATURES

- **Double grid, perforated and reinforced.** Its grids are highly reinforced and removable for easy cleaning. The lower grid allows the water on which we bathe the sponge to always be clean and the upper one, together with the rollers and the pedal, allows us to drain.
- **Non-slip rubber feet** to prevent movement during float cleaning.

## COMPATIBILITY

Ideal for use with long-handled sponges:

Ref. 68992 SPONGE BASE FOR EASY SQUEEZE. Floor float with HIDRO sponge of 42 x 13 x 3 easily replaceable by velcro. Aluminum handle detachable in two parts.

Ref. 68993 SPONGE REPLACEMENT EASY SQUEEZE. HIDRO sponge of 42 x 13 x 3 easily replaceable by velcro for the BASE WITH SPONGE FOR EASY SQUEEZE

## TECHNICAL SPECIFICATIONS

- Product dimensions: 645 x 525 x 330 mm
- Net weight: 6.7 kg
- Material: Polypropylene (body)  
ABS (grilles)
- Tank capacity: 32 l

## PACKING

- White cardboard box with colour sticker.
- Unit box dimensions: 650 x 550 x 360 mm
- Gross weight: 8.7 kg
