BLANKE AQUA SHIELD

Waterproofing for Steam Rooms, Showers, and Most Exterior Applications

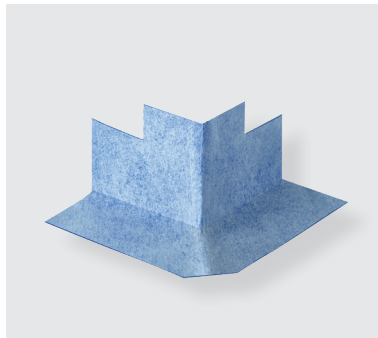

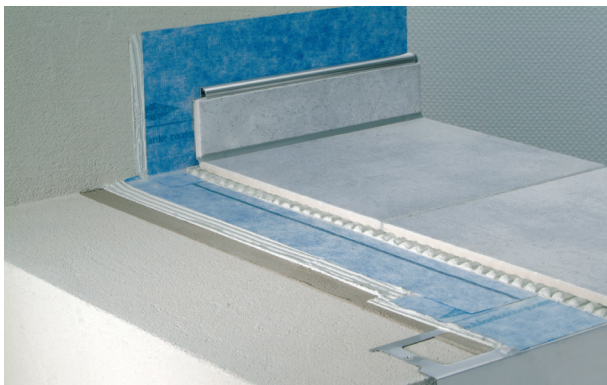

AQUA DB

CORN A

CORN I

AQUA WM

Technical Data

Material:	Polyethylene film with a fleece glued to the top and bottom
Thickness of the PE film:	0.2 mm (0.008 inches)
Weight:	Approx. 280 g/m ² (approx. 9 ounces/sq.ft.) 30 meter roll: approx. 8.4kg (approx. 18.5 lbs) 5 meter roll: approx. 1.4kg (approx. 3.1 lbs)

Specification

1 roll = 323 sq. ft. / 3.28' x 98.4'
Part No: 537-900-10030

NEW!

1 roll = 54 sq. ft./ 3.28' x 16.45'
Part No: 537-900-10005

Advantages

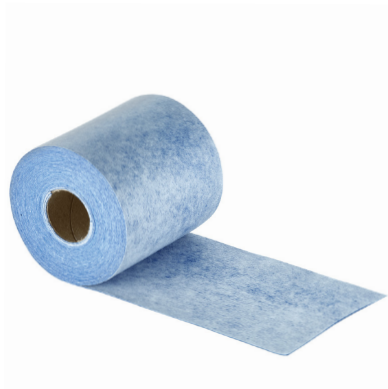

BLANKE AQUA-SHIELD is the premier waterproofing solution for steam rooms, showers, and most exterior applications.

- > Lightweight waterproofing fabric
- > Superior tensile strength & workability
- > Suitable for interior and most exterior applications
- > Resistant to saline solutions and microorganisms
- > Crack isolation and uncoupling properties

Product Description

BLANKE AQUA SHIELD is a high-performance waterproofing membrane engineered for superior protection. Easily applied with premium modified thinset (ANSI 118.4 or higher) to dry, flat, and structurally sound surfaces, it offers a versatile solution for various installations. Its key advantage is its ability to form a robust vapor barrier, essential for high-humidity environments like bathrooms and steam rooms, minimizing moisture penetration and preserving structural integrity over time. With high tensile strength, it provides lasting resistance against moisture infiltration, including saline solutions, acids, alkaline solutions, organic solvents, alcohol, and oils. Additionally, it is resistant to microorganisms, deterioration, and rot, ensuring long-term durability.

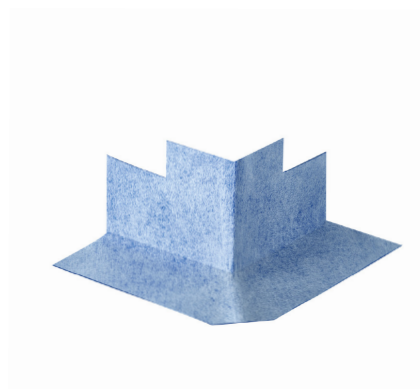

To enhance functionality and ease of installation, BLANKE AQUA SHIELD is supported by a full range of accessories. These include **BLANKE AQUA CORN-I** and **CORN-A** for seamless corner installations. For added convenience, **BLANKE AQUA DB** is available in multiple sizes to accommodate various installation needs, while **BLANKE AQUA WM** features a pre-cut hole for effortless integration with pipe penetrations. Together, these components create a complete and reliable waterproofing system, ensuring a smooth and efficient installation process.

BLANKE AQUA DB

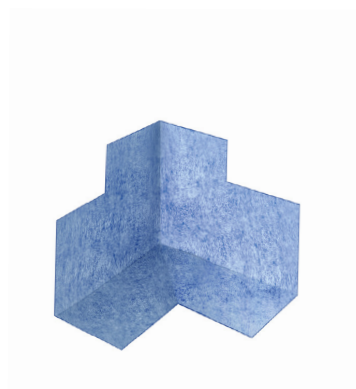

width/length	Art. no.
7.87" x 98.4'	538-900-20030

* Available in other sizes
