

Wet/Dry HEPA Dust Extraction Vacuum

Automatically cleans filters without interrupting operation

CS 1445 H

- Electromagnetic Pulse Cleaning System maintains maximum airflow and suction with automatic filter vibration
- Automatically cleans filters – without interrupting operation – when decreased airflow is detected
- 99.999% filtration efficiency of particles of 0.3 microns
- "Power Take Off" outlet activates the vacuum ON/OFF from the power tool switch
- 4 modes of operation: regular vacuum, power tool activation, auto-clean and auto-clean with power tool activation
- Wet vacuuming capability with sensor for automatic shut off to protect motor and filters.
- Includes a 15' hose and 26' power cord for easy portability on jobsite.

CS 1445 H Dust Extraction Vacuum

Standard Equipment includes:
 2 HEPA Filters (P/N 428956), 15' Hose, Tool Adapter and 26' Power Cord.

Specifications	
Motor Power	11 AMP / 110 V
Air Flow	130 CFM
Canister Capacity	9 gallons
Filtration Efficiency	99.999%
Weight	24.3 lbs.

- 99.999% filtration efficiency
 - 0.1-0.3 micron retained particles
 - 99.995% required dust retention*
- *Referring to MIL-STD 282 Type C

Also Available:

- CS 1445 K Dust Extraction Vacuum with accessories for 2 tools
- CS 1445 Dust Extraction Vacuum with Filter Cartridge (P/N 416069)

Accessories:

Part No.	Description
416014	Paper Filer Bags, 5-pack
421742	Plastic Filer Bags, 5-pack
416069	Filter cartridge, 2-pack
428956	HEPA Filter, 2-pack
072401	Cleaning Kit (wands, hose, crevice tool, floor cleaning tool)
413235	Hose
519753	Hose Adapter
585451	Y-Adapter (For attachment of 2 tools)

Electromagnetic Pulse Filter Cleaning System vibrates both filters to remove dust. Cleaning can be activated automatically or manually. This maximizes suction and doubles filter life.
